MEMORANDUM TO THE FILE

FROM :   
SUBJECT : Discussion of VHF Mobile Equipment with OC/O&T.

1 2 SEP 1957

25X1A9a

A discussion with Messrs.  of SB/O&T was held in their office on 6 September 1957, relative to operational use of VHF Mobile and base station equipment.

25X1A9a

An effort was made to determine operational requirements by O/C for this type of equipment. Both gentlemen indicated that as far as they are concerned O/C has very little requirement in the field. It was suggested that TSS be contacted to determine their needs as O/C has been providing equipment support to them. They also agreed to determine, from records and discussion with concerned parties, how many and of what type VHF Mobile equipment is being utilized in the field by O/C.

A meeting with TSS in the near future is planned to determine what operational requirements they have utilizing this type equipment and what type and quantity is in operation.
